Dear Nayan,

I hope you're doing well. I wanted to bring up an issue I've been facing with the app's performance on older devices. The app is running slower than expected, and despite optimizing the code and testing different solutions, I haven't been able to fix the issue.

Could you please provide some guidance or suggest a solution? Your advice would be really helpful.

Thank you for your time and support.

Best regards,
Harshad
